

SCANTER 5000 RADAR SERIES

SELECTED INTERNATIONAL REFERENCES

With 70 years' experience, Terma is the leader in solid state radar development for the advanced Vessel Traffic Services and Coastal Surveillance markets.

The SCANTER 5000 series is a ground-breaking pulse compression radar that allows the addition of Doppler-enhanced processing (MTI) for improved detection of fast moving sea and air targets.

Since the introduction of the SCANTER 5000 series 10 years ago, in excess of 300 systems have been delivered
